

DINOSAURS 3D: Giants of Patagonia

What other teachers said:

What a great insight into the past! Loved the narration too! Simply told and a feast for the eyes. A nice link to Geography, History and Biology. Would be a great accompaniment to our "story of the universe", "Timeline of Life" studies.

Gina Mowbray – Forestville Montessori School

Highly suitable for up to year 10 Science students on the study of fossils. Study of Evolution – senior science and biology.

M.P Warwick Strathfield Girls High School

Thoroughly enjoyed it. Great Graphics.

Sheila Thomson, Eastwood Heights Public School

Loved it. Adds great understanding and depth.

Lyn Kirkby, Moriah College

Plenty of factual information along with motivating footage.

Andrew Faulks, Saint Josephs College Hunters Hill

One of the most interesting and exiting films in years.

Ray Arthur, Trinity Catholic College Auburn

Wonderful. Fantastic Visuals. Amazing Scenery. I loved hearing real scientists speak about their work.

Margaret Ogle, William Rose School

Fantastic photography. Great visual effects. 3D was great.

Chris Kemp, Carlingford West Public School

Excellent effects, Great Story of Paleontologist's research.

Rose Evans, Athena School

Excellent. Lots of information. Well organised. Entertaining and informative.

Margaret Stone, Balmain Public School

The film was full of surprises and left one feeling that you were experiencing "virtual reality". I learnt more about dinosaurs from this short visual experience, than from any other available resource put together.

Wonderful. I have been to Egypt and it reminded me of what a wonderful civilisation it was.

M Solomon, Domremy College

A fantastic movie, great cinematography, interesting flashbacks in ancient time and very informative narrative. A great window into the past of a unique civilisation.

Brunella Di Bella, Mary MacKillop College Waverly

Such fantastic photography. It brings history to life. Make me want to see Egypt.

Allison Griffiths, Ravenswood School

Very well explained. Visually very effective and informative.

Kath Riley, Loftus Public School

Dramatised scenes were wonderful. Gave a great insight into the role that mummies played in the Egyptian culture.

Brad Earl, Holy Family Menai

Really enjoyed seeing places that I have previously visited.

Wendy Davison, Beacon Hill Primary

Informative, interesting and well presented.

David Lee, Darlington Public School

It was good, although I think that the film is most suited to kids for stages 1,2,3. More scenes with the actual dinosaurs would be better. I was a little disappointed.

Karla Pratt, The Athena School

I just love the 3D effects.

Nada Zaitoun, Burwood Girls High School

Excellent, very informative and good visual and digital sound effect. 3D is excellent.

Pauline Chen, Carlingford West Public School

The film takes us on a times travel into the ancient land of the fabulous dinosaurs. The brilliant recreations using computer graphics reveal a stunning and mysterious world.
