

## **ROVING MARS**

### **What other teachers said:**

*"Exciting and inspiring to see what man is capable of achieving and also to catch a glimpse of world beyond ours. Beneficial to design and technology subjects especially."*

**Nicole Williamson, Arndell Anglican College**

*"Truly inspiring in showing the ingenuity and creativity of the human mind. It integrated a variety of different fields – technology and science (excellent), the principles of scientific research and investigation highlighting its achievements and disappointments when things don't work. Links with Astronomy/Robotics in the Junior Science curriculum. Very impressive and enjoyable as well as challenging for young minds. I'm sure students would be most enthusiastic about science after seeing this."*

**Diane Beaumont, Epping Boys High School**

*"Witnessing the construction of the Rover vehicle, the incredible technology that went into it and then the long journey to Mars – what an experience to have through the IMAX film – just superb."*

**Patricia Mugerli, St Francis Xaviers, Arncliffe**

*"As an educational resource it was marvelous. As Julie mentioned in her introduction it emphasized team work and showed clearly the amazing technology involved"*

**Pamela Rabinau, Liverpool TAFE**

*"Absolutely amazing. I was totally awestruck and I knew previously most of the information. What an incredible experience. Inspirational – true history makers. More importantly it gave the ordinary person the feeling of accomplishment and explanation."*

**Graeme Sandstrom, Darlington Public School**

*"It is a direct link to the JASON expedition science program for 2005 "Mysteries of Earth and Mars. My O.C Class will definitely come."*

**Cheryl Walker, Richmond Public School**

*"One of the best (if not the best) features in terms of educational value, detail and entertainment. Suitable for a very wide range of ages and interests".*

**Mrs Rami Yom Tob, Penrith High School**

*"5 STARS! Very informative and Inspiring"*

**Cathy Maclaurin, Mitchell High School**

*"Inspiring – Butler is certainly a master story teller. Seamless reconstructions and effects. Great Philip Glass scene. Particularly impressive sound effects."*

**Maris Gwyer, Bethlehem College**

*"The IMAX format really sets it apart from conventional Mars stuff Pitched at a level that most kids could comprehend. The variety of IMAX themes is amazing and the format brings everything to life – it creates REAL experiences."*

**Chris Pearl, Riverside Girl's High School**
