DOLPHINS & WHALES (G)

Available all year

Dive into a new immersive and highly emotional adventure with Jean-Michel Cousteau's **DOLPHINS AND WHALES 3D**, which will take you from the dazzling coral reefs of the Bahamas to the warm depths of the waters of the exotic Kingdom of Tonga for a close encounter with the surviving tribes of the ocean. Stunning images captured for the very first time in 3D will allow you to discover their lives and habitats as never-before-seen. *Duration 45 mins.*

FLY ME TO THE MOON 3D

Available Term 4

FLY ME TO THE MOON 3D is the story of 3 spirited and curious "tween-aged" flies who live across from Cape Canaveral in 1969 and dream of travelling into outer space. This fun-filled animated 3D film will connect a new generation of children to the adventure and excitement of space exploration. *Rating pending. Duration 45 mins.*

GRAND CANYON 3D (G)

Available Terms 3 & 4

Set against the immense backdrop of the majestic Grand Canyon, this exciting new film takes us on an exhilarating river-rafting adventure down the Colorado River in the company of a team of explorers who are committed to bringing awareness to global water issues. One of the world's mightiest rivers, the Colorado, no longer reaches the sea. *Duration 45 mins.*

SANTA VS THE SNOWMAN 3D (G)

Available Term 4 only

Turning tradition on its head, **Santa vs. the Snowman 3D**, tells the heart-melting story of a lonely Snowman who at first is swept away by the magical wonders of Santa's Village, only to ultimately wage war on Santa because he is jealous of all the attention that Santa gets during Christmas time. What ensues is a polar feud of hilarious proportions, where ultimately friendship reigns supreme and audiences are rewarded with a heart-melting holiday film. Ideal for primary students as an end of year treat.

WILD OCEAN 3D

Available Terms 3 & 4

Each year an unbelievable feeding frenzy takes place in the oceans of South Africa as billions of sardines migrate up the coast. The migration has provided an annual food source for both life in the sea and the people living along the African shores for countless generations. **WILD OCEAN 3D** will plunge audiences into an epic underwater struggle for survival and reveal the economic and cultural impact the migration has on the coastal communities. *Rating pending. Duration 45 mins.*

ⓘ Please note that not all films are available year round and the selection of films available for school bookings is subject to change. New IMAX Films are released usually every term. Please check with the IMAX Group Sales Office on 9213 1600 about the availability of titles and up-coming releases. All films 45 mins duration unless specified otherwise.

In addition to all new film releases, the following titles are available for schools during selected Terms in 2007.

Bookings are taken on a first come first served basis, so be quick to ensure the film and session time on the date of your choice!

CHECK SCHOOL SESSION TIMES AT www.imax.com.au/schooltimetables

ANTARCTICA (G)

Available all year

Explore the bio-diversity of this unique frozen land in what is regarded classic IMAX film. Links directly with the Stage 3 HSE Unit on Antarctica ideal double film partner with SHACKLETON'S ANTARCTIC ADVENTURE.

AUSTRALIA: LAND BEYOND TIME (G)

Available all year

We explore how life in our diverse, rugged, eroded land has adapted to flourish in a largely arid environment. See how the giant red kangaroo has become more efficient than most athletes, and learn how plants and animals co-operate to maximize their chance of survival. Through computer animation, you'll journey back in time to witness the birth and evolution of our unique land. A must for geography and science students.

BLUE PLANET (G)

Available all year

BLUE PLANET is an IMAX classic, a film that was way ahead of its time and – unfortunately – is as relevant today as it was when first launched. Uniquely, **BLUE PLANET** is a space film about the Earth, but it doesn't stop there. The film takes an opportunity to send an important environmental message about the fragility of planet Earth and inspire stewardship of this, our one and only home.

BUGS! 3D (G)

Available Term 3 & 4

Come face to face with Hierodula, the preying mantis, and Papilio, the beautiful butterfly, on a magnificent 3D journey into their dramatic and savage lives. Using incredible footage shot in a rainforest, the 3D technology delivers a fantastically entertaining and enlightening experience about the little guys in life!

COSMIC VOYAGE (G)

Available all year

COSMIC VOYAGE begins on Earth, firmly grounded in human perspective, and asks a fascinating question: Where exactly do we stand in the vastness of the cosmos? The film features a "cosmic zoom" as viewers are transported across millions of years as galaxies collide, the solar system forms and life begins on a young planet Earth.

Duration 40 mins.

Ⓢ Please note that not all films are available year round and the selection of films available for school bookings is subject to change. New IMAX Films are released usually every term. Please check with the IMAX Group Sales Office on 9213 1600 about the availability of titles and up-coming releases. All films 45 mins duration unless specified otherwise.

DEEP SEA 3D (G)

Available all year

Sea life in a whole new way! Plunge into a 3D encounter with some of the underwater world's most exotic creatures and learn how different species rely on each other for survival. Narrated by JOHNNY DEPP and KATE WINSLET.

DINOSAURS 3D: GIANTS OF PATAGONIA (G)

Available all year

Following Professor Rodolfo Coria, we visit sites of major discoveries in Patagonia and travel back in time to see these amazing beasts come to life. Well-grounded in science, the film carries us through the lives of two specimens of Dinosaurs. The film shows through science that although most species of their evolutionary branch have disappeared, the Dinosaurs are still with us today. They are birds.

FORCES OF NATURE (PG)

Available Terms 1 & 2

FORCES OF NATURE will showcase the awesome spectacle of earthquakes, volcanoes and severe storms as we follow scientists on their quest to understand how these natural disasters are triggered.

THE HUMAN BODY (G)

Available Terms 3 & 4

THE HUMAN BODY tells us the amazing story of our own lives, and the ordinary miracles that keep our bodies running at full steam from morning till night. The film covers themes of personal development, adolescence, puberty & child birth, among other marvels of human biology and physiology.

MUMMIES: SECRETS OF THE PHAROHS (G)

Available all year

MUMMIES: SECRETS OF THE PHAROHS will be part historic journey and part scientific adventure. The key historical thread of the film will be the re-enactment of one of the great discoveries in modern history: the late 19th century find of a cache of forty mummies, including twelve Kings of Egypt, among them the legendary Rameses the Great. This real life Indiana Jones adventure of grave robbers and hidden treasure will be interwoven with the tale of the evolution of science.

MYSTERIES OF EGYPT (G)

Available Term 1, 2 & 3

Explore the great monuments of ancient Egypt in a spellbinding film journey to the heart of this mysterious land. Discover if the curse of Tutankhamun is more fact than fiction as you travel through the Valley of the Kings, the tomb of Tutankhamun and many more of the marvels of the Pharaohs.

ⓘ Please note that not all films are available year round and the selection of films available for school bookings is subject to change. New IMAX Films are released usually every term. Please check with the IMAX Group Sales Office on 9213 1600 about the availability of titles and up-coming releases. All films 45 mins duration unless specified otherwise.

ROVING MARS (G)

Available Terms 3 & 4

Is there life on Mars? That is one of the questions posed by this IMAX film, which details the journey of Spirit and Opportunity, the two rovers exploring the red planet. Links exceptionally well with the COG's unit on "Machines" as we see the process of designing and constructing the Rovers from prototype to end result.

SHACKLETON'S ANTARCTIC ADVENTURE (G)

Available all year

Every now and then you learn a story of bravery so powerful that it changes forever your understanding of human courage, endurance and the will to live. **SHACKLETON'S ANTARCTIC ADVENTURE**—a true story—is possibly the greatest survival story ever told.

SPACE STATION 3D (G)

Available all year

Shot by the astronauts themselves, this is the closest many of us will ever come to being in space. Strikingly beautiful, the sharp 3D images will have you believing you are floating weightless in the International **SPACE STATION**. Narrated by Tom Cruise.

SYDNEY: A STORY OF A CITY (G)

Available Terms 1 & 4

Take an amazing visual journey from Bondi beach to the Harbour Bridge, from the celebrated Opera House to the convict built Hyde Park Barracks and uncover the story behind Australia's first city. Well-suited to primary and lower secondary students. Links well with units that cover topics in family history and archaeology.

⦿ Please note that not all films are available year round and the selection of films available for school bookings is subject to change. New IMAX Films are released usually every term. Please check with the IMAX Group Sales Office on 9213 1600 about the availability of titles and up-coming releases. All films 45 mins duration unless specified otherwise.
